Athens, Georgia 30606 | (912)257-2943 | kam05094@uga.edu

SUMMARY

Senior Public Health student at the University of Georgia with a strong academic foundation in health promotion, health policy, and community health. Experienced in applying coursework in research design, program planning, and professional health communication to real-world roles. Detail-oriented and committed to advancing health equity, with demonstrated strengths in compliance, data tracking, and relationship building. Seeking to contribute to a medical office through hands-on learning opportunities and administrative support.

EDUCATION

University of Georgia

Bachelor of Health Promotion

Major: Health Promotion with Emphasis in Health Service

Honors: Zell Miller Scholarship

Athens, GA

Expected May 2026

GPA: 3.77

RELEVANT EXPERIENCE

Oasis Catolico Santa Rafaela

Tutor

Athens, GA

September 2024 – December 2024

- Facilitated learning and instruction for two 2nd-grade students in an underserved community for three months, providing consistent math, reading, and homework support, which resulted in sustained improvement in coursework.
- Identified learning challenges amongst students, guided them through structured steps and positive reinforcement, leading to greater independent study skills and classroom engagement.
- Engaged and organized in recess activities with children, which fostered holistic development and improved peer relationships.
- Improved learning by identifying gaps in progress tracking within the tutoring program, created a simple assessment to measure reading and math growth, which resulted in increased effectiveness in teaching.

WORK EXPERIENCE

Oglethorpe County High School

Health Promotion Intern

Lexington, GA

January 2026 – Present

- Conducted community research and needs assessment among high school students ages 15-18 to understand student health behaviors and barriers to wellness.
- Created community asset map, highlighting local health resources, services, and support organizations.
- Researched health promotion strategies related to nutrition, physical activity, and rural health disparities.

ACADEMIC EXPERIENCE

- **Semester-long project assessing the needs of a South Asian American man in Athens, GA, diagnosed with type 2 diabetes**, researched social determinants of health and community resources, resulting in recommendations to improve health outcomes and access to care.
- **Developed a technical manual on birth control methods for diverse populations**, researched contraceptive options, and analyzed pros/cons based on population priorities, producing a practical, evidence-based resource for informed decision-making.
- **Completed a literature review on Black women in the U.S. experiencing intimate partner violence**, analyzed and identified risk factors contributing to disparities in health outcomes, and produced a report emphasizing implications for intervention and prevention strategies.
